

LAPTh is partner in an ERASMUS Intensive Programme whose project coordinator is [METU](#) (Middle East Technical University), Ankara, Turkey. The consortium organised the International Summer School on High Energy Physics: "Standard Model and Beyond" funded in part by the EU and the Turkish National Agency-Life Long Learning. Our first year doctoral students took part in the school which was held in Antalya from 28 August to 8 September 2012. See the [site](#) of the School for more details.
